1: What were the chief benefits of this training session?

- Learning a logic model & outcome measures to evaluate my programs
- Using logic model
- Networking (two different responders)
- Learning more about the RPE-- getting to meet folks from my region whom I've never met
- Building community
- Learning about the requirements needed to satisfy CDC
- Helping us determine output measures vs outcome measures
- Being with SA providers
- Community building. Began to unify RPE people in common mission

1: What areas need improvement in this training session?

- At times too long-winded
- Room felt cramped
- None
- Nothing
- Put urban/rural health educators together at same table

1: If I were asked to prove how this training would improve my job performance in measureable ways, I would suggest:

- Looking at outcome measures
- ? (two different responders)
- I don't have a suggestion for this
- None
- Don't understand the question?
