- 12. What were the chief benefits of this training session?**  
A focus on RPE activities.  
Becoming knowledgeable of what the CDC expects.  
To see what is on the horizon for reporting.  
Learning how to define outcomes, how to measure the data.  
Info on outcomes and indicators.  
Working the program logic model as a group.  
Walking through the logic model; discussing in small groups; opportunities to network.  
Networking with other rural areas.  
Able to discuss relevant issues with Central Office Staff  
Great presentation of different concepts  
It will help me achieve my goals and have the numbers to prove them.
- 13. What areas need improvement in this training session?**  
This should have been at least a two day meeting in order to allow more time to work on project(s).  
Spending time on designing data collection tools to gather data.  
More SA Program participation.  
More specific geographical training (rural vs. metro),  
Thanks for your effort and preparation - it shows in your materials, discussion, etc.
- 14. If I were asked to prove how this training would improve my job performance in measureable ways, I would suggest:**  
Create a logic model  
My plans and reports will reflect this.  
Reviewing the results of my grant applications - esp DOH  
I will plan my program objectives in a way that ensures compliance with outcome requirements.  
I can better understand what we a a group need to do for a statewide logic model. Thanks.
