Dear Doug:

This letter serves as a formal thank you for your support of our work in preparing the grants personnel in the government to write grants and understand the logic model. You all do a great job and we continue to receive wonderful feedback regarding your expertise and content knowledge as well as the practicality and effectiveness of the training. This year was no different. Dick Grimm was an excellent presenter at our Grant writing training in March of this year.

We are so excited that we have such a wonderful working relationship with an organization such as Performance Vistas, Inc. and that you are always willing to assist us. What a wonderful business development service to provide!

Again, thank you and we look forward to a continued working relationship in the future.

Cordially,

Michelle A. Lane
